Homework 13 Discussion Question Set

1. According to Davidson and Lytle, what are the benefits of using interpretive models in historical analysis? What challenges must historians account for when using them?
2. How do Davidson and Lytle use interpretative models to understand the US's decision making behind dropping the atomic bombs at the end of WWII?
3. What are the conclusions that Davidson and Lytle draw about the factors that contributed to the decision to drop the atomic bomb?
